

Private YouTube Video

Upload Guide

Introduction

This tutorial will explain how to privately upload your video application on YouTube using your personal computer (PC).

Only those with the link will be able to access your video. By following this guide, you can ensure that your video will not appear in search results, recommendations, or on your channel.

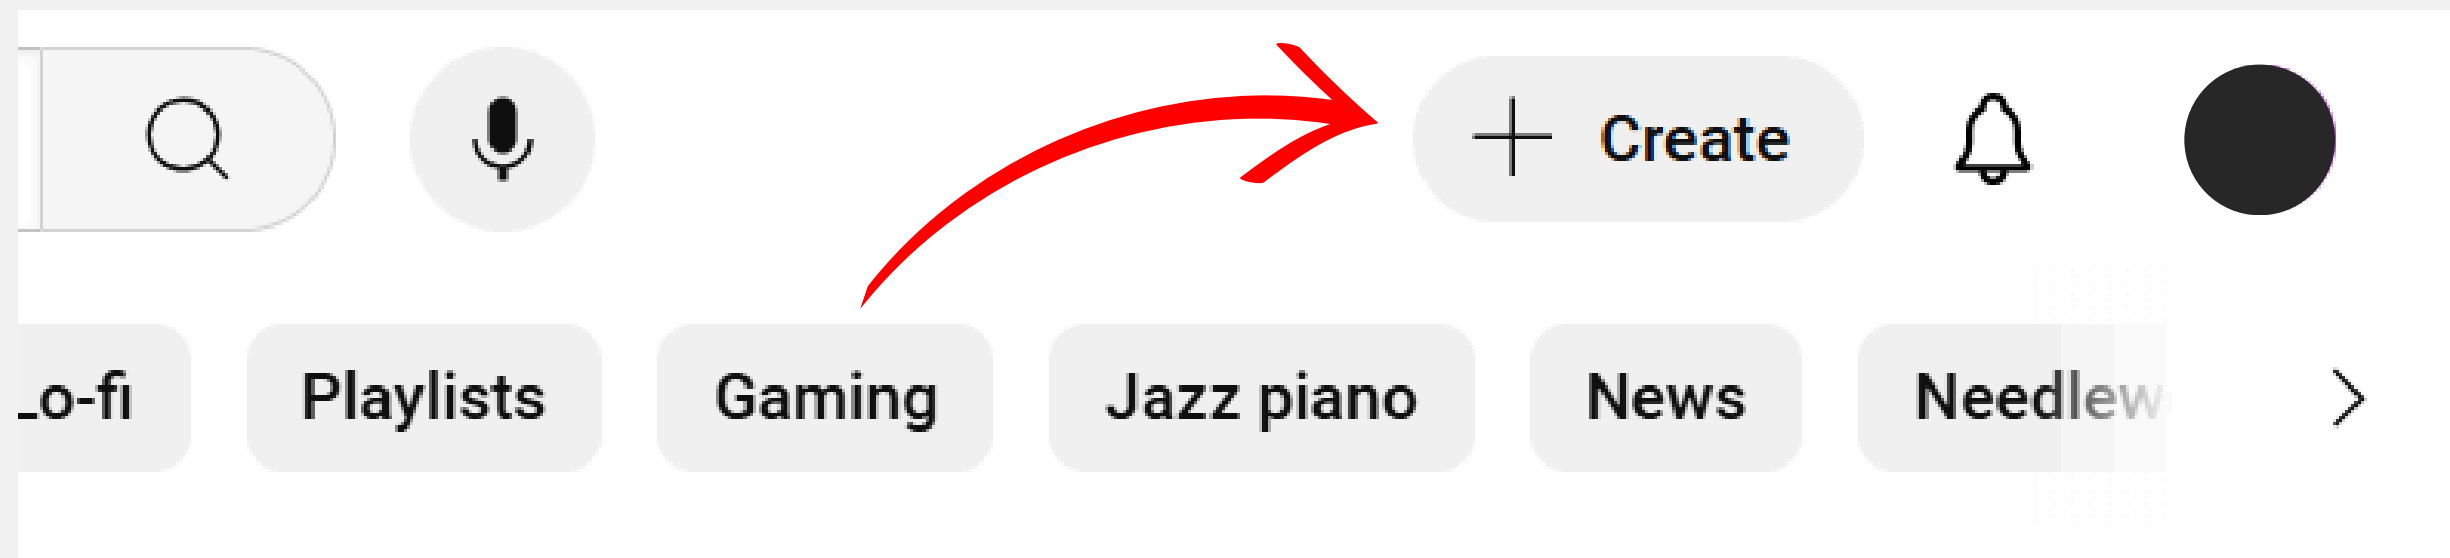

Step 1: Create a Youtube Account

1. Go to **Youtube**.
2. In the top right, click **Sign In**.
3. Click **Create Account**.
4. Choose **For my personal use**, **For my child**, or **For work or my business**.

Step 2: Upload Video

Click **Create** in the top right corner of your screen.

From here, click **Upload Video** and upload your video by either dragging and dropping or selecting files from your PC.

Step 3: Titling Video

You should now see the screen to the right.

Title your video as follows:

First Name, Last Name - Root 2 Rise or Young Men Rising.

Ignore *Description*, *Thumbnail*, and *Playlist*, and choose “No, its not made for kids.” These details do not matter since the video will be private.

Click next for both **Video Elements** and **Checks**.

Step 4: Publish Video and Submit Link

You should now be on the Visibility page.

1. Click **Unlisted**.
2. Click **Save** in the bottom right hand corner.

Visibility

Choose when to publish and who can see your video

Save or publish

Make your video **public**, **unlisted**, or **private**

- Private**
Only you and people you choose can watch your video
- Unlisted**
Anyone with the video link can watch your video
- Public**
Everyone can watch your video

Step 5: Copy and Submit Link

After clicking Save, you will now be provided with a link.

1. Click the **copy icon** to the right of the link.
2. Paste this link into the video upload section of the application.
